

Manoj Kandpal

Full Stack Software Engineer

+91-7248043509 | manojkandpal.official@gmail.com | linkedin.com/in/m-kandpal | github.com/Manoj-kandpal | Bengaluru

PROFESSIONAL SUMMARY

Full Stack Software Engineer with 4+ years of experience building enterprise-scale web applications end to end – from JavaScript and TypeScript frontends (React, Nuxt.js, Vue) to Java and Spring Boot microservices on Azure. Skilled in REST API design, relational and NoSQL databases, Git-based CI/CD workflows, and automated testing. Proven track record of performance optimization, code reviews, and Agile/Scrum delivery at scale, with measurable impact on user engagement and system reliability.

TECHNICAL SKILLS & CORE COMPETENCIES

Languages: Java, JavaScript, TypeScript, Python (Basic)

Frontend: ReactJS, NextJS, NuxtJS, VueJS, Vanilla JS, HTML5, CSS3, SCSS

Backend & APIs: Spring Boot, NodeJS, REST APIs, Microservices, Kafka, Apigee API Gateway, OpenAPI/Swagger

Databases: PostgreSQL, MySQL

Cloud, DevOps & Testing: Azure, Docker, Kubernetes, Git, GitHub Actions, CI/CD, Agile/Scrum, Grafana, Cypress, Mockito

Engineering Fundamentals: Data Structures & Algorithms (DSA), System Design, LLD, HLD, OOP

AI-Assisted Development: GitHub Copilot, Claude Code, ChatGPT/OpenAI API, OpenAI Codex

PROFESSIONAL EXPERIENCE

Software Engineer

Sep 2025 – Present

A.P. Moller – Maersk

Bengaluru, Karnataka

- Design and build new **Java** and **Spring Boot** microservices and **REST APIs** for feature rollouts, integrating them with the **Next.js** frontend on **Azure** while optimizing data serialization and caching to improve UI responsiveness.
- Create reusable **Sitecore CMS** components with Vanilla **JavaScript** and build **Nuxt.js** enterprise web apps used by **10,000+** daily global users.
- Modernized Maersk.com's Integrated Global Navigation frontend, delivering a highly scalable and intuitive UI.
- Lead the **Ask Maersk AI** Web Component, maintaining a **30–35% CTR** while consistently lowering support case creation.
- Participate actively in daily **Scrum** sprints, performing peer **code reviews** and mentoring team members to maintain high code quality standards.
- Design and execute targeted **A/B experiments** to optimize user workflows, driving a **10–15%** boost in overall engagement.
- Implement behavioral analytics by instrumenting **GTM** dataLayer events for new components and building dashboards to map user traffic and drive content improvements.

Associate Software Engineer

Mar 2022 – Aug 2025

A.P. Moller – Maersk

Bengaluru, Karnataka

- Worked as a full stack developer on the core Case Management platform – built and maintained backend microservices using **Java**, **Spring Boot**, and **Azure** cloud-native architectures, and developed the **Next.js** frontend.
- Participated actively in **Agile/Scrum** processes including sprint planning, estimation, retrospectives, and daily pull request **code reviews** using **Git**.
- Optimized frontend and backend performance across legacy modules to improve UI responsiveness and API efficiency.
- Deployed semantic, **SEO-friendly** frontend architecture across production pages to maximize search engine discoverability.
- Migrated manual testing to **Cypress**, reducing regression testing efforts by **80–90%**.

PROJECTS

Website Navigation ([GitHub](#) | [App](#))

Personal Project

Engineered a fully responsive, template-based website navigation bar built using **JavaScript**, **HTML**, and **SCSS**.

- Built dynamic menu states and smooth UI transitions while implementing Webpack bundler for automated asset management.

Article Hub ([GitHub](#))

Personal Project

Developed a scalable RESTful backend application built with **Java**, **Spring Boot**, and **PostgreSQL**.

- Implemented **JWT** authentication and role-based access control (RBAC) alongside comprehensive **OpenAPI/Swagger** specifications and automated unit testing.

EDUCATION

Bachelor of Engineering – Computer Science | Jul 2022 | RNS Institute of Technology, Bengaluru (CGPA: 9.21/10)

CERTIFICATIONS

Algorithmic Toolbox (UC San Diego) | **Python 3 Programming Specialization** (University of Michigan) | **HTML, CSS and JavaScript for Web Developers** (Johns Hopkins University) | **Python for Data Science** (IBM)

ACHIEVEMENTS

Spot Awards (x3) – A.P. Moller – Maersk | **Infosys Certified Software Programmer** | **5 Star Problem Solving & Python** – HackerRank
